**Join us for a Fascinating Journey into Aquatic Science during the program
“Eco-Lab: Dissect a Perch”**

GENEVA IL — Get ready for an evening of captivating aquatic science exploration with an exciting event, “Eco-Lab: Dissect a Perch.” This unique program invites participants to delve into the world of fish anatomy and discover the remarkable similarities between humans and our underwater counterparts. Join us at Creek Bend Nature Center on Tuesday, July 11, from 6:30 to 8 p.m. for an unforgettable educational experience.

Under the expert guidance of our accomplished naturalist, attendees will gain the necessary skills to examine and dissect their very own perch specimens. Prepare to be amazed as we explore the intricacies of comparative anatomy, uncovering the surprising commonalities shared between humans and fish. Witness firsthand the incredible adaptations that allow fish to thrive underwater and embark on long-distance swims.

Each participant will receive a personal perch specimen to dissect, along with a complete set of professional dissection tools. Immerse yourself in this hands-on learning opportunity that promises to deepen your understanding of the fascinating world beneath the waves.

Designed for youth aged 14 and above, this program encourages participants to expand their scientific knowledge and develop practical dissection skills. To secure your spot, registration is required at least two weeks prior to the event, with full payment due at the time of registration. The registration fee is \$25 per person.

Event Details:

Date: Tuesday, July 11
