Miscellaneous:

There was discussion regarding the status of funding and the current acquisition projects pending. Exec. Dir. Meyers indicated that the funding pending does not include future grant reimbursements. Commissioner Martin asked what, if any, repercussions of grant funding resulting from the pandemic. Meyers responded that the OSALD grants have been suspended. This is a main capital source of funding. The District would be losing the opportunity to apply for grants this year such as a land acquisition grant of \$750,000 and capital project of \$400,000. Commissioner Wojnicki asked about the maximum acreage that the District can purchase. Meyers responded that based on the population, the District can acquire up to 50,000 acres.
