Learn about Bird Nests during Feb. 6 nature program

GENEVA, IL — Learn about your feathered neighbors, during Forest Preserve District “Learn from the Experts” Bird Nests nature program on Saturday, Feb. 6, from 10-11:30 a.m. at Hickory Knolls Discovery Center.

Winter is a great time to get to know birds — even though they may be hundreds or thousands of miles away. Many bird species apply definitive ‘signatures’ to their nests using specific materials. Nest size and location also provide important clues as to their builders. Come enjoy an outdoor exploration!

Learn From the Experts programs are for ages 18 and above. Masks are required at all programs and group sizes will be limited. Advance registration is required. Registration fee is \$10 per person. Call 630-444-3190 or email programs@kaneforest.com to register.

Hickory Knolls Discovery Center is located at 3795 Campton Hills Dr., St. Charles.

Learn from the Experts programs are taught by experts in their respective fields and offer in-depth learning opportunities about our local ecology. The programs are offered through a partnership by the Forest Preserve District of Kane County, St. Charles Park District and Geneva Park District.
